Chronic Diarrhoea Relieved. Edward E. Henry, with the United States Express company, Chicago, writes: "Our general superintendent, Mr. Quick, handed me a bottle of Chamberlain's Colic, Cholera and Diarrhoea remedy some time ago to check an attack of the old chronic diarrhoea. I have used it since that time and cured many on our trains who have been sick. I am an old soldier who served with Rutherford B. Hayes and William McKinley four years in the 23d Ohio regiment, and have no ailment except chronic diarrhoea, which this remedy stops at once." For sale by all druggists.

MOVING PICTURES' NEW USE.

In Novel Way. Like the phonograph, the moving pic ture machine is to be made to serve a more worthy purpose than gathering in the nickels and dimes at small theater doors. It is to be put to the most

TIN CAN CLUBS.

Their Mission Is to Supply the Demand For New Forests.

B. H. Green of Monterey, Cal., has | sent out a circular giving information regarding the tin can clubs through whose beneficent activities he expects to see the United States supplied with needed forests.

The attempts to cultivate tree claims in the Dakotas many years ago were rather discouraging, says the National Magazine, but Mr. Green insists that he has been successful in planting tree seeds, nuts and cuttings in refuse tin 2 cans and can now show an oak tree twenty feet high only eight years of age, and also a redwood tree, grown from seed, which is now fully thirty feet high and only twelve years of

Mr. Green insists that a tomato can with a fair sized hole punched in the bottom and filled with good earth is just the thing needed to start a tree in to become dry the growth of the young tree will be amazing. Later the little trees are transplanted without removing from the cans, for the rust eats away the can sufficiently to allow the roots to free themselves as they need more room.

Taft Club of Fat Men.

The giants who shackle hogs and lasso cattle in the Chicago stockyards bave organized the first "fat man's Taft club." No man is eligible who weighs less than 230 pounds. Frank L. Beveridge, a commission man, who weighs 285, is the president.

One member weights 360 and is still growing up and out. He is Everett Jackson, twenty-eight years old. This is their platform:

"Realizing the heavy importance of good and well bred men working together in harmony and in view of adding weight to the political situation and showing our preponderous appreciation of the greatness of our Republican convention in nominating such a large and manly expansionist as they did, we hereby organize ourselves in what will be termed "a fat man's Taft club of the Union stockyards of Chicago."

New Job For Women. The steamship Carmania of the Cunard line has a woman assistant for the purser to answer many of the questions which that hard worked authority is asked previous to the sailing of the vessel. She is Miss Catharine Leith, who is described in the passenger list as "typo and steno." It is said that other ocean liners may adopt the idea.

Ode by an Olympic Competitor. [A poem written by the young Univer-sity of Virginia sprinter James Alcorn Rector just before departing for Londo to participate in the Olympic games.] I've heard about the enchanted lands-Ye fairy lands—and all.
But when I die just let me rest

Way down in Arkansaw. Where may ye find such mountains? Search ye long and far, Ye'll never find such fountains Such as spring from Arkandaw.

Name me a place in this big world Where nature is its law, Where plains and valleys so beautiful As they do in Arkansaw.

Majestic are her long leaf pines; Beautiful are the rivers that graceful ly wind Way down in Arkansaw.

Nowhere do flowers bloom so bright, And musical is the crows' caw As they wing their way in rapid flight Way down in Arkansaw.

So I've heard about enchanted is Ye fairy lands—and all, But when I die just let me rest

#### An Appetizing Breakfast

Wake up the palate with a steaming dish of Frank's Famous Frankforter Sausage. You never tasted anything more deliciously

flavored than these fine frankforters. Cured in the good old-fashioned way by hanging in the smoke of hard maplewood.

Just as good for luncheon or supper, too. Frank's Milwaukee Sausages (36 varieties) are made in a clean, light kitchen from the very choicest cuts of meat O. K.'d by government inspectors. No adulterants are used. Chemicals and preservatives never find their way into Frank's Sausage Kitchen. No wonder buyers who insist on the purest food are the largest users of them. Sold by the best dealers everywhere. If you do not find them at your market, drop a postal to L. Frank & Son Company, Milwaukee. They will see that you get them.
